Do sure to check the brate fluid level in the front reservoir. The motionayole shoulds a selection of the selection of position when checking the little should be selected to be below the little should the control of the selection of equal and a selection of equal and a selection of equal and selections.

naje se veria seriamente dañado. No use nunca líquidos de freno que hayan sido guardados en recipientes usados o que no estén sellados. No vuelva a utilizar líquido de frenos que haya sobrado de la última reparación o que haya estado guardado durante largos períodos de tiempo porque el líquido de frenos absorbe la humedad del aire. Utilice solamente líquido de frenos SAE J1703 (DOT3 o 4). Procure no derramar líquido de frenos sobre superficies pintadas o de plástico porque éstas se dañarán seriamente.

mjo would look so obese. Mo use never brake fluids that have been guargiven in used or non-used containers Sealed. Do not use reindere fluid again. that has left over from the last scramration or that has been stored for long periods. because the brake fluid absorbs. moisture in the air. Use only liquid
